Meet Homeridge Response Viv 2!

Viv was born on July 8th, 2012. Her sire (father) is Arethusa Verbatim Response and her dam (mother) is Homeridge Kobalt Viv EX90. Originally bred in Canada, Viv is a more recent addition to our herd, coming here from a herd in Maine in 2018.

Her strong maternal pedigree has produced many show winners and Viv herself was 3rd Place 5-year-old at The Eastern States Exposition in 2013. Originally scored at EX 94 (excellent 94) when we purchased her, Viv scored EX 95 (excellent 95) last year and is one of the three 95-point cows we have on the farm today. To date, she has two daughters who scored excellent in other herds and has two daughters here on the farm. She is due to have a calf again in June 2021.

A docile kind of cow, Viv keeps to herself most the time, however we have discovered she has a love for Dunkin Donuts!
