COPYRIGHT AND RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe upon the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research; teaching criticism, commentary, or news reporting
- as a Woodstock Foundation preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the researcher separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright is not necessarily the Woodstock Foundation. The Woodstock Foundation is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

HISTORY

Frederick and Julia Billings and successive generations of the Billings family created the Billings Family Papers. The collection of manuscripts, photographs, and architectural drawings provide a rich source of information about the family's personal and business interests and their domestic, social, and philanthropic activities.

Frederick Billings (1823-1890), born in Royalton, Vermont, moved to Woodstock with his family in 1835. He was the fourth of Oel and Sophia Billings' nine children. He attended the University of Vermont, studied law, and would eventually travel to California during the gold rush, where he made his fortune as a lawyer, land developer, and railroad tycoon. He became very wealthy and traveled widely, but always considered Woodstock his home. In 1862 Frederick met and married Julia Parmly (1835-1914). Born and raised in New York City, Julia was the daughter of prominent New York dentist Dr. Eleazar Parmly and Anna Maria Valk Smith Parmly. Julia was educated at a series of private day academies in New York and traveled extensively throughout her life. Frederick purchased their Woodstock home in 1869.

Frederick and Julia Billings had seven children. They raised their family in Woodstock, and after 1881, the family split their time between Woodstock and a townhouse on Madison Avenue in New York City. Their children were educated by governesses at home, attended private schools and universities, traveled widely, and enjoyed upper-class society's typical social and cultural activities. Two of their sons, Parmly and Ehrick, died young; Parmly in 1888 at age 24, and Ehrick a year later at 17. A third son, Frederick Jr., died a year before Julia in 1913 at the age of 46.

Frederick Billings passed away in 1890, and Julia in 1914. After Julia's death, the Woodstock estate was divided among their surviving children. Laura Billings Lee (1864-1938), Mary Montagu Billings French (1869-1951), Elizabeth Billings (1871-1944), and Richard Billings (1875-1931) continued to manage the estate and would remain attached to the Woodstock property for the remainder of their lives.

In the division of the estate, Laura Billings Lee received the title to the residence she and her husband, Frederic S. Lee, had built on River Road in 1907, along with surrounding acreage. Richard received land encompassing the farmlands within the Intervale of the Ottaquechee River and along Beaver Brook where, in 1916-17, he and his wife, May Merrill Billings, built a large brick Georgian revival house. The Billings Mansion, its contents, and surrounding grounds went to Mary Montagu Billings French and Elizabeth Billings in equal and undivided parts. Elizabeth and Mary, with Mary's husband John French, Sr., continued using the estate as a summer residence. The sisters added to the estate a large parcel of farmland purchased from their brother Richard in 1917 and land encompassing the fairgrounds adjoining the farm,

purchased in 1933. The two women continued as co-owners and successfully managed the Billings Estate, including the operations of the Billings Farm, established by their father, Frederick Billings, in 1871.

Mary and Elizabeth continued as co-owners until Elizabeth's death in 1944. When Mary passed away in 1951, the estate was left to Mary Montagu Billings French's three children, John French Jr. (1909-1984), Mary French Rockefeller (1910-1997), and Elizabeth French Hitchcock (1912-1976). The property was divided, with Mary French Rockefeller receiving the Mansion, its furnishings, and the surrounding property; John French Jr. and Elizabeth Hitchcock retained property and residences on the remaining estate land, and the siblings donated several acres to the Town of Woodstock. The approximately 500-acre Billings Farm was transferred to the new Billings Farm, Inc., a privately held firm established by the heirs. The siblings held title to the land and served as stockholders and officers.

Frederick Billings' granddaughter, Mary French Rockefeller, and her husband, Laurance S. Rockefeller (1910-2004), continued the property's agricultural legacy. Together, they established the Billings Farm & Museum, which opened in 1983 as an operating dairy farm and history museum that interprets Vermont's rural, cultural, and agricultural heritage. In 1992, the Rockefellers donated Mary's ancestral home and surrounding acres to the federal government to establish Marsh-Billings-Rockefeller National Historical Park, which opened to the public in 1998.

SCOPE AND CONTENT

Catalog Number: 2004.003

Volume: 246 Linear Feet

Description:

The Billings Family Papers is a collection of household, personal, and business-related documents, letters, diaries, and photographs that record the history of the Billings family and provide a rich source of information about family relationships and activities. The collection comprises approximately 286 cartons and 28 map case drawers of manuscripts, photographs, maps, and plans. Manuscripts measure 118 linear feet and are stored in folders, archival document boxes, cartons, and flat in portfolio boxes. Sixty-four linear feet of photographs are stored in archival document boxes and cartons, flat in portfolio boxes, and oversized photographs are stored flat in portfolio boxes and map case drawers. The 64 linear feet of maps, architectural plans, and oversized documents are stored flat in steel drawers and rolled in oversized archival containers.

Organization:

The Billings Family Archives were first sorted and arranged in 1976; minor alterations were made at cataloging in 2012-2014. The collection is arranged into three series: Manuscripts, Photographs, and Maps, Architectural Plans and Oversize Documents. Each series is organized into multiple subseries:

Provenance:

The collection was created by the Billings, French, and Rockefeller families, who owned and occupied the Billings Estate between 1869 and 1997. The Billings family resided in Woodstock from 1869-1914, the French family from 1914-1954, and the Rockefellers from 1954-1997—the bulk of the material dates from the Billings and French family eras. The material was donated to the Woodstock Foundation by Laurance S. Rockefeller, husband of Mary French Rockefeller, Frederick Billings's granddaughter, in 2004. Family-related material from family descendants and associates has been added to the collection since 2004.

Custodial history:

The Billings Family Papers were first sorted and arranged in 1976. At that time, the collection was maintained as a private family collection owned by Mary French Rockefeller, Frederick Billings's granddaughter, and her husband, Laurance S. Rockefeller. The collection was stored in the basement of Mary and Laurance Rockefeller's home in Woodstock, Vermont, today the Mansion at Marsh-Billings-Rockefeller National Historical Park. In the spring of 1994, the collection was moved from the Rockefeller home to a room on the upper floor of the restored 1890 Farm Manager's House at the Billings Farm & Museum. In 2004, Laurance Rockefeller donated the collection to the Woodstock Foundation. In 2012 to 2014, the family papers were cataloged and rehoused, and in 2015, the collection was moved to a new storage facility at Billings Farm & Museum.

A finding aid, *A Guide to The Billings Mansion Archives*, was created in 1976-77. The guide was revised and enlarged in 1986-88 and computerized in 1993. Until 1994, the collection was known and cited in published research as the *Billings Mansion Archives*. The collection was renamed, and a finding aid, *A Guide to the Billings Family Archives*, was written in 1995. At cataloging in 2014, a finding aid was written based on the earlier guides and revised in 2017 and 2024. To better reflect the collection's contents, the collection was renamed the *Billings Family Papers* in 2024.

Accruals:

Accession 2005.003

The Robin W. Winks Papers. This material has also been referred to as the *Robin Winks Residual Papers from his Billings and Rockefeller Biography Projects*. The papers were transferred to the Billings Family Archives by Mr. Winks' widow, Mrs. Avril Winks, and consist primarily of research material and correspondence pertaining to Mr. Winks' two biographies, Frederick Billings: A Life, published in 1991, and Laurance S. Rockefeller: Catalyst for Conservation, published in 1997. The papers also contain documents relating to the establishment of Marsh-Billings-Rockefeller National Historical Park. The papers are arranged according to subject. The material was added to Series I, Manuscripts, as Subseries 27: Robin W. Winks Papers.

Accessions 2005.013, 2006.013, 2007.008, and 2008.011

Rockefeller Estate Papers. This material was sent to the Woodstock Foundation between 2005 and 2008 from Laurance Rockefeller's office at 30 Rockefeller Plaza, #5600, New York, NY. The bulk of the records were sent in 2008. The material consists of Billings family-related items, including 19th and 20th-century books; several are inscribed and contain inserted notes and letters to various family members. Also included are Julia Parmly Billings Prayer book, c.1906; photographs; appraisals and inventories; clippings and journals; two scrapbooks; eight architectural drawings of the Mansion, and oral history cassette tapes and VHS videotapes relating to the Billings and Rockefeller families; the Woodstock Estate, and the Billings Farm & Museum. The family-related material was added to Series I, Manuscripts, as Subseries 28: Rockefeller Estate Papers.

Accession 2015.002

David Lane Billings Donation. Four items that relate to Frederick Billings' brother Oliver Phelps Chandler Billings (1836-1894) include two bound volumes of letters written by Oliver Billings to various business associates and family members, 1882-1893, a printed oration delivered by Jesse Leeds Billings, Esq., c. 1916, and fifteen photolithographs, loose in the original portfolio of the Billings Library, University of Vermont. H.H. Richardson, Architect. c.1890. Added to Series 1: Manuscripts, as Subseries 29: David Lane Billings, II Donation.

Accession 2016.001

Letters. The letters were found while processing the Billings Farm Records in 2016. The source of the letters is unknown but may have come from a Billings descendant. Mary Montagu Billings French wrote most of the letters to her son John French, Jr., 1930; 1943-1947. The group also includes a letter from Philip Stratton to Samuel E. Kilner, 1913; John McDill to John French, Jr., 1944; and Rhoda Teagle correspondence regarding the Billings, Montana Centennial Celebration, 1982-1983. The letters are in Series I: Manuscripts, Subseries 1: Letters.

Accession 2016.003

Two pages from the journal, "The Flea," vol. 1, August 14, 1883, and vol. 1, August 28, 1883. The article relates to activities concerning the Billings family. The article is in Series 1: Manuscripts, Subseries: Family Histories and Miscellaneous Papers.

Accession 2016.004

Carl and Ching-Wen Taylor Donation. The gift consists of six items related to Frederick and Julia Billings's youngest son, Richard Billings (1875-1931), Carl Taylor's grandfather. The items include books and two photographs of Richard and May Billings. They were added to Series 1: Manuscripts as subseries 30: Carl and Ching-Wen Taylor Donation.

Accession 2019.002

Jennifer Brennan French Donation. Three books from the library of Roberts Walker French that once belonged to his grandmother, Mary Montagu Billings French. The books include A Narrative of the Captivity of Mrs. Johnson. Reprinted from the third edition, 1907, inscribed by

Julia Parmly Billings. A Narrative of the Captivity of Mrs. Johnson, containing an account of her sufferings during four years with the Indians and French, 1834, and The Indian Captive; or a Narrative of the Captivity and Sufferings of Zadock Steele Related Himself, 1818, inscribed by John French. Added to Series 1: Manuscripts, as Subseries 31: Jennifer Brennan French Donation.

Accession 2021.001

Photograph Albums: *The Alphabet of MFR*. Two copies. The photo albums contain photographs and notes regarding Mary French Rockefeller compiled by her daughters. They are in Series II: Photographs and Subseries 12: Photograph Albums.

Associated Materials in the Billings Family Archives:

The Billings Farm Records, processed in 2023-2024 and cited in the past as the Billings Farm Archives and the Billings Property Archives, document farm operations and related activities from Frederick Billings's establishment of Billings Farm in 1871 through June 1993, when Laurance Rockefeller merged Billings Farm and Billings Farm & Museum and transferred oversight to the Woodstock Foundation, Inc.

The Billings Farm & Museum / Woodstock Foundation has unprocessed Institutional Records relating to the Woodstock Foundation and the Billings Farm & Museum.

Associated Materials in Other Repositories:

The collections at Marsh-Billings-Rockefeller National Historical Park include associated materials. They include *The Curatorial Records Prior to NPS Management, 1847-1988*, and the *Billings Family Collection of Printed Material, 1830-1994*. Also, the former Curator's Digital Records at MBRNHP and the unprocessed National Park Service curatorial records, 1998- 2008. MBRNHP also has books, photographs, and associated materials in its museum collections at the park in Woodstock, Vermont.

The Rockefeller Archive Center, 15 Dayton Ave., Sleepy Hollow, New York, holds papers of Laurance S. Rockefeller that relate to the Billings Farm & Museum, Marsh-Billings-Rockefeller NHP, the Woodstock Foundation, and the town of Woodstock.

SERIES DESCRIPTIONS

I. Manuscripts (1832-2019)

The manuscript collection holds significant historical value, with its core being a group of family letters and diaries. The letters exchanged among the Oel Billings family (1835-1865), the Frederick Billings family (1865-1890), and the French family (1907-1953) provide a unique insight into the lives of these prominent families. The diaries, including those of Frederick Billings (volumes written 1859-1889), Julia Parmly Billings (written 1855-1914), Mary Montagu Billings French (written 1898-1951), and Elizabeth Billings (written 1907-1926), offer a personal narrative of their activities.

Other materials in the manuscript collection include speeches and lectures, genealogies, inventories, wills, financial papers, and property deeds; scrapbooks, account books, children's schoolbooks, and grade reports; documents relating to the Billings Mansion (Marsh-Billings-Rockefeller NHP); and modern research notes of biographers and historians who have used the collection's resources.

The letters are in chronological order, providing a timeline for researchers. The letters, sorted in folders by sender and recipient, are arranged based on family groups, with folders arranged by family surname and generation, with the parents' letters first, followed by their children and children's spouses. The letters of friends and business associates are filed alphabetically by sender. Estimates of date have been made for several folders, and the contents of folders have been sorted chronologically. Senders and recipients are identified by their full names. Women are always identified by their full married names, whether their letters were written in childhood or adulthood. Box A5 contains letters from Frederick Billings to his wife, Julia Parmly Billings. At cataloging in 2012, they were found in fifty wrapped bundles that Julia Parmly Billings or another family member may have organized. The original order, by bundle, has been rearranged chronologically to make research more accessible.

The diaries are organized by author and date, labeled on the enclosure with the year of compilation, and tagged with an inserted slip. Mary M.B. French's diaries contain many loose papers that she inserted, including snapshot photos and letters. The insertions have been retained in each volume, as found, and should be handled with care.

The bound volumes include family guest books, notebooks, account books, school exercise books, and scrapbooks. These volumes are sorted by author or compiler and by subject. Several notebooks and scrapbooks have supplied titles for greater ease of reference. Some scrapbooks were indexed by the original compilers, and there are occasional insertions in the larger volumes. The family guest books have several inserted and pasted in photographs.

Additional materials include a wide variety of resource material, including business (rather than personal) correspondence, speeches and essays, biographies and obituaries, probate records, property deeds, and modern research papers. All are sorted by type of material and subject.

Manuscript collections associated with Laurance and Mary Rockefeller include correspondence, memos, and reports regarding their activities relating to the Billings Estate, the National Park Service, the Woodstock Foundation, Billings Farm & Museum, and other recreational, social, and philanthropic activities. Also included with the Rockefeller papers are items once belonging to Mrs. Rockefeller's parents and grandparents, including Billings family music books, Julia Parmly Billings' prayer book from 1906, and several books, many inscribed by various members of the Billings family.

II: Photographs (1861-2021)

The photograph collection includes a wide range of Billings family portraits, travel views, Billings Farm and estate buildings, and landscape views, from early daguerreotypes and tintypes to snapshot albums. A notable rarity in the collection is the mammoth landscape photographs of the American West made by Carleton E. Watkins and F.J. Haynes and glass stereographs of California by Carleton Watkins.

The collection contains historical and modern photographs of the Mansion buildings and property, both interior and exterior. It also houses copy negatives and prints made from antique images. The materials that make up the collection include early cased portraits, including daguerreotypes, ambrotypes, porcelain photos, and tintypes, with and without their original cases and paper mounts. Also, the photograph series includes paper prints, unmounted or mounted on paper, card stock, or composition board or enclosed in small frames; many albumen prints in various sizes, small cyanotypes, and occasional specialty papers and finishes. The collection also contains stereographs mounted on cardstock, glass slides, glass stereographs, glass negatives, and polyester negatives, some accompanied by paper contact prints or enlargements. Cellulose nitrate and cellulose acetate negatives were removed from the collection and digitized in 2018. The photo albums, bound in leather, composition board, or paper, contain a variety of paper prints, tintypes, and other media.

At processing in 1976, identifiable sitters, dates, and locations were recorded in pencil on the back of each print or mount and added words or comments enclosed in brackets. Identifying captions were also penciled on the windows of photo album leaves. Cased photos are often identified by small, typed paper tags enclosed within each case and on each enclosure. The film negatives and glass slides are identified on the enclosures or group label dividers.

Photographs added to the collection since initial processing in 1976 relate to the Billings, French, and Rockefeller families, their friends, and activities. They include photograph albums, family portraits, travel views, and images of the estate taken

during their occupancy. The Rockefeller images were taken in and around Woodstock; some were taken at the JY Ranch, Jackson Lake, Wyoming, and Tarrytown, New York.

The organization of the photograph collection was imposed upon processing in 1976; minor alterations were made at cataloging in 2012-2013. Photographs are generally arranged by size, type, and subject. The smallest items, paper prints, small, framed portraits, cased portraits, and glass plates, are grouped according to the type of photographic process, size, and subject, with the portraits further divided into family groups. They are stored in archival sleeves and archival boxes.

The items of middle size, loose paper prints, and albums are grouped by subject. The paper prints are stored in acid-free file folders, and the folders are arranged alphabetically. Photograph albums are in archival enclosures and arranged by subject. Albums processed before 1995 were assigned a number and grouped sequentially by number. The largest paper prints are grouped by subject or maker and stored flat in portfolio boxes or steel drawers. The largest albums are also stored flat in portfolio boxes.

III: Maps, Architectural Plans, and Oversize documents. (1869-1996)

This series contains three principal materials: maps, architectural plans, and miscellaneous large documents such as diplomas, certificates, and posters. The collection includes both antique and modern materials and modern diazo and Mylar copies of some antique items frequently consulted by researchers. Most items are stored flat in file cabinets; some are stored rolled. Three antique portfolios, formerly used to house some maps, are preserved and stored with the collection; they are not cataloged.

The material includes 19th and 20th-century maps of Billings family land holdings in Woodstock and the surrounding area, including survey maps of Frederick Billings's land done in the 1880s, a contour map of the Mansion grounds, a topographical map of the Echo acre property, and various plot plans. The series also includes tree planting plans and various estate garden and landscape plans.

The antique architectural drawings in this series are of the buildings on those lands, including plans of the Mansion, Belvedere, Bungalow, and the Farm Manager's House at the Billings Farm, as well as other structures on the estate and in Woodstock from the Billings and Rockefeller years. Among the architectural plans, two significant collections survive. One collection consists of drawings from the Mansion renovations of 1885-86 by Henry Hudson Holly. These are ink and pencil originals, many on fragile media. The surviving collection is incomplete; it consists mainly of full-scale detail drawings used on the site. The other significant collection consists of drawings from the Mansion and estate renovations of 1955-1966 by Theodor Muller. Most of these drawings are modern diazo prints. The collection is extensive and includes many duplicates that were used on-site.

Oversize materials include family diplomas, certificates, and posters. Notable among the oversized documents are YWCA posters, published to encourage women to support the war effort during World War I.

To impose uniformity in subject headings, the Billings Estate is listed by that name in all 19th and 20th-century entries, even though the property owners did not bear the Billings surname before 1869 or after 1914.

Box A88 <i>French, Mary Montagu Billings. Letters to her son John French, Jr., 1930. Letters, excerpts below. July 30, 1930- from Woodstock. [Mary writes that Elizabeth was accepted at Vassar and Smith but is not sure if she should go. "The greenhouses, where the swimming pool is to be, are no more and work is [illeg] on such as taking up the floors etc. The view from the porch is much more attractive without these." Aug. 5, 1930- from Woodstock. "The swimming pool is underway, the glass part of the greenhouses is down but the foundations are so strong, that it is taking a long time to dislodge the bricks etc. [Elizabeth has decided on Vassar] "with no enthusiasm but I hope it is the right move and that she will be happy about it later." Sept. 18, 1930- from Greenwich, CT. "Your last letter from Munich was such a joy...It opened new windows and we see more clearly what conditions must be in Germany, which is [illeg] and valuable in this world, where so much is hearsay." Sept 13, 1930- MMBF likely writes from Woodstock. "We had a pleasant visit from Laurance. He brought Mary back from Seal Harbor on Tuesday and stayed until Thursday A.M." Also, "The swimming pool is well under way. The water proofing coat is about to be put on. It is a big pool and just now with threat of water famine one wonders if it can ever be filled."</i>	1126	BFA	French, Mary Montagu Billings	1930	Series I: Letters: Billings Children <i>Accession 2016.001</i>
Box A88 <i>French, Mary Montagu Billings. Letters to her son John French, Jr., 1943. Excerpts below. Nov. 16, 1943- from New York City. "I had a letter from Julia Thus last week. She had been to the farm house where carpenters, painters, Mr. Haselton and a mason were busy and also two movers with the Corkum's furniture, which they were putting in the office until the rooms are ready. In the meantime the Corkums are staying in the Herdsman's house. Mr. Snyder wrote that they were getting settled in the French house and Mrs. Snyder was more content." Dec. 16, 1943- from NYC "We have heard from Mr. Field. 500 Rhode Island Reds are now occupying the chicken houses. Cows are being sought, the barn, where the cow stalls are, has been whitewashed. A milk room near, where the bull used to be, has been built. I think by Mr. Corkum (the new manager) and Harrington, and conforms to requirements. The dairy formerly used to be made useful is some way. The lower floor of his farm house should be ready for occupancy by now- and the Corkums will probably move in their furniture, which up to now has been stored in the rooms near the office. <p>Dec. 25, 1943- from NYC <i>[She writes about trimming the tree and Christmas day with Elizabeth, Connie, D.A. (Elizabeth Billings), Rhoda, Johnny, Bobby and Mary Montagu.] And she writes, "A letter from John McDill dated December 19th said this about Mr. Corkum, who is now Manager of the Billings Farm: 'He is an excellent man. I like him personally and respect his abilities professionally. They are nicely reserved folk and not rushing into things. And the undertow[?] of village opinion is good; all the words I have heard are approving of their restraint and performances. We quite like her. She is easy + dignified + amiable all at the same time. He is really planning to do a job for yrs, that I can tell. So I think that all your planning + hoping will be richly rewarded. He is truly a person to count on + has pride + interest in his work. But it couldn't be a worse time to start. Howland is sick with a complication of everything, and, as you know Harrington has left (for a rest, because of a hurt shoulder), so that leaves [illeg] Jillson and not so sprightly Woodbury as sole help on your ranch. Corkum is on the search for cattle now that the milk room is started + the stables underway. But [?] + [?] slowly because of help difficulties.' From Mr. Field we have had the first monthly statement, 250 Rhode Island Red pullets have been bought and are just beginning to lay - and cows are soon to be bought , so you see we are moving along."</i></p>

<p><i>French, Mary Montagu Billings. Letters to her son John French, Jr., 1944. Excerpts below.</i></p>				<p><i>Accession 2016.001</i></p>	
<p>Jan. 2, 1944- from NYC <i>[Family news- the grandchildren] "...no news from Woodstock or the McDills for some time"</i></p>					
<p>Jan. 1944?- MMBF from NYC <i>"We have good reports from the farm and Mr. Corkum is doing a good job. Cows are being installed very shortly. Hens seem to be on the job from the number of eggs exported. Let us be thankful. Income tax blanks are in Felix' hands. What a job! An article in the Readers Digest about 2 weeks ago was amusing with comments on the difficulties. I wonder if you saw it."</i></p>					
<p>Jan 8, 1944- from NYC <i>"D.A has been having the 'flu' and seemed quite sick for two days. She is better now but has a cough which is trying and is in bed most of the time."</i></p>					
<p>Feb. 7, 1944- from NYC <i>"Did I tell you we are now having eggs from the farm? I keep planning to go to Woodstock as I know I should, but it seems difficult to arrange. A letter from Mrs. Faulkner says she has decided not to go south, partly on account of the difficulty of traveling and that my room is ready for me at any time."</i></p>					
<p>Feb, 13, 1944- from NYC <i>"If all goes well, I am thinking about going to Woodstock on Thursday of this week. Mrs. Faulkner is still there and said my room was waiting for me. -I have not been to Woodstock since we left on November 1st. There will be much to see as regards the farm. I believe we now have 19 cows, 3 heifers under one year and 2 over one year + 245 hens - The second floor of the farm house is being made ready for a herdsman. It may be it is ready by now. Have you any ideas about some pension or gift to Snyder? Of course, as you know he is in the French House this winter - but I think he understands it is only for that time and it does seem as if something should be done.</i></p>					
<p><i>I think there should be some changes in my will. I went to see Mr. Bradley at Davis Polk and liked him very much. As you are so familiar with its contents, with the changes that are taking place, have you any suggestions?</i></p>					
<p><i>...I had a telephone from Mary last Friday. Laurance had gone to the coast - I understand David is in Africa - I sat next to Peggy at Mrs. R's about ten days ago.</i></p>					
<p><i>...D.A. has been having another cold but I hope it is under control. "</i></p>					
<p>Feb. 20, 1944- from Pinecroft, Woodstock, VT [Marianne Faulkner's house?] <i>"The evening I arrived, I telephoned Mr. Corkum at the farm and arranged to meet him there early the next morning. I first went to the house, which is attractive, with fresh paper and paint. Mrs. Corkum, I also met and liked her- the apartment -one of 2- floor is now occupied by the herdsman, his wife and 2 yr old little daughter. Their name is Thomson[?] and although I did not see him, from what I hear, he is a real addition. The second floor makes a delightful apartment. The kitchen arrangement is satisfactory and ample room. - Hazelton did a good job. - I went to see the cows. They nearly fill the stalls- about 20 of them and are a pleasure to look at and reminiscent of the past. The butter milk room is being used although not quite completed. It seems the requirements necessitated a room where the milk is carried immediately after milking, close by.</i></p>

<i>I then went to see the hens which are producing about 200 eggs a day. Mr. Corkum seems strong, able and interested and very much alive. I hope to see him again today."</i>					
<i>March 5, 1944- from NYC [Mary's 75th birthday] "Felix has been busy with the income tax returns. I saw Mrs. Duble about the Greenwich property. I find with the farm expenses , the sooner the Greenwich property is sold the better."</i>					
<i>March 11, 1944- from NYC "I saw Felix yesterday and sent my check to Montpelier + Burlington (the balance due for 1942 1943). In the paper this morning (the Times) stated that Professor Einstein when asked what his reaction was to the wage of income tax questions-, answered 'This is a question too difficult for a mathematician. It should be asked of a philosopher.' With the expenses of the farm, I have had to draw on principle and have drawn out my savings Bank Account. I have seen Mrs. Dube [or Duble] to discuss with her the speeding up of the sale of the Greenwich property... A letter from Mr. Corkum states that the cow Maupoare[?] Conical has doubled the quota of livestock, per man, which means that men on farms are no longer subject to Deferment purposes unless the livestock is sufficient for the men [illeg]...as a cow counts for one unit and a heifer for one-tenth of a unit, it will be necessary on many places to increase the proportions of cows and decrease the proportions of heifers - as cows are much more expensive than heifers, it is not good for D.A. and me. It is quite a problem, but income is beginning to appear and we hope for the best. "</i>					
<i>[Mary continues to be concerned about income and taxes. She asked John if he received her letter (of Feb 13) in which she asked if he had suggestions for changes to her will] "I don't know whether you received my letter saying I had been to see Mr. Bradley and in my letter asked if you had any suggestions about my will in these changing times. I wonder for instance if it is wise [is wise is written over might be wise] to tie up so much in trusts and yet that may be the best thing to do to avoid two inheritance taxes." [Mary also wonders if she should reduce gifts to individuals and some charities.]</i>					
<i>March 19, 1944- from NYC "Evidently the letter you answered about my will was the first one I wrote; since then I have written you another with a few specific questions. Until I hear further, I will delay going again to see Mr. Bradley. In the meantime I will mull over your suggestions - with the taxes as they promise to be, it looks as if there might not be much left. Perhaps we shall all have to live off the farm!"</i>					
<i>March 26, 1944- from NYC "Laurance and Mary were here for supper, but left soon after to take a plane back to Washington... Mr. Field said he might be in N.Y. this week so we hope to see him and find out more about the farm."</i>					
<i>March 29, 1944- from NYC [Mary glued a clipping from a newspaper that reports that Nelson Rockefeller, then Coordinator of Inter -American affairs, "ranks third in the list of foreigners for whom Nicaraguans have named their babies."] "A report from Mr. Field yesterday which I wish you were here to peruse. We have word that he is to be in New York Friday and Saturday, so we hope to see him. "</i>					
<i>April 2, 1944- from NYC [John McDill visited Mary in NY] "He came last night from Woodstock and today went to Scarsdale to be with Jane Healy for the day but expects to return tonight. He looks well and we enjoy having him here and hope Julia may join him some day this week.</i>					
<i>We had a conference with Mr. Field on Friday and discussed many things. John McDill says Mr. Corkum is doing very well."</i>					
<i>April 16, 1944- from NYC "Felix was in on Thursday and E.B. and I sent checks to Montpelier. We are having to draw on Central Hanover for some of the farm expenses but try to think of the farm as another investment and not just spending money. "</i>					
<i>April 30, 1944 - from NYC ..."I received a telegram from Mrs. Mooney saying Bert has died that morning, his funeral service to be on Saturday morning at 9 o'clock. It was really a shock, for Mooney has seemed such an integral part of our place for so many years. With him gone, I hardly know what we would do if we hadn't turned the farm over to Mr. Field. There has not been time as yet to consult with him or Mr. Corkum, but when Mr. Field was part here, it seemed best to try to get a gardener to look after the lawns, roads, swimming pool etc. and he and Mr. Corkum were looking for a possible man. Woodbury's house was to be vacated May 1st, so whoever came would have some where to live."</i>

<i>May 7, 1944- from NYC</i>					
<i>... "Laurance and Mary look very well. Mary much more rested than when she was last here. They both spoke of your letter to Mary on her birthday and were interested to have the latest news of you. I showed Laurance some of the farm reports and he was enthusiastic about the way the accounts were kept and seemed impressed with the results shown so far. "</i>					
<i>" I think I wrote you of Mooney's death. Before that, it seemed wise to have another gardener or someone to look after the lawns swimming pool etc. so a search was made and one man promised to come on May 1st but never appeared and nothing heard from him! So Mr. Field and Mr. Corkum advertised and tried to find someone and now two Woodstockians Murray Maynes, who has been away from Woodstock, is engaged and although I do not remember him, I believe we are fortunate to have him in our employ. He has a wife and two children and will move into the house where Woodbury lived on South Street..."</i>					
<i>"DA is leaving for Woodstock on Wednesday, May 17th. Cousin Lucy is going with her also Josephine Pitkin Newton and they plan to do most of the housekeeping in the cottage themselves.</i>					
<i>[Also in this letter, MMBF discusses selling the Greenwich house and clearing and organizing their belongings in Greenwich.]</i>					
<i>May 22, 1944 from Woodstock</i>					
<i>"...I found DA and Josephine Pitkin at the cottage and it has been and is a joy to be here. - Mr. Corkum came soon after my arrival and the reports of the farm are encouraging. The meadow looks more business like with ploughed and tumbleweed [?] fields beside the Victory gardens, than it has in a long time. Murray Maynes is in the house Woodbury had and I think we are very fortunate to have him in our employ. - He is taking a real interest in the place and is looking after the upper part of the place. I hope you have received a report from Mr. Field as he wrote he expected to send you some kind of summary. Yesterday DA and I went to see the Mooneys, Mrs. and Francis, they told us of Mooney's sudden illness and death and expressed the wish to do everything they could to help us-and seemed to agree that it would be better for them to find some other place to live. We believe, and told them so, that we thought that was so- but that we wanted to make the change easy for them, that there was no immediate hurry, but a man should be found by perhaps July to occupy the house and work on the farm."</i>					
<i>"Before I came up I had a letter from Robert Clark, asking if I had any plans for the French house on Mountain Avenue. He evidently was interested and his daughter Eleanor Leonard very much so. The house the Clarks are now in, is rather small, when they have their family there, and Eleanor's husband is likely to be called at any time, perhaps he has been even now. I admit I would like to have descendants of the French family in the house. ..I cannot see that you, Mary or Elizabeth would ever occupy the French house with all the available real estate of the Billings estate and I think there does not exist any very deep sentiment for it. Of course, one complication is the fact of the Snyders now occupying it. I went to see them yesterday and I am concerned they have tried every where to find a house to rent or buy without success, but they are still trying. I would like your opinion on this whole matter and I expect to talk to M + E within a couple of weeks. As I wrote you it is hard for me to decide puzzling questions."</i>					
<i>May 28, 1944 from Woodstock</i>					
<i>"Since I was here last week the greens[?] has grown, the seeds have come up and one can almost see the corn field. I am hopeful of getting an answer to the letter regarding your feeling about the French house, whether you would approve of selling it to the Clarks, for instance? The Snyders are still occupying it but I hope by July they may have found some other abode..." After church I went to see Mrs. Faulkner and Dr. + Mrs. St. John. They all were interested in what to be doing on the farm and spoke with enthusiasm about the plan and what they have seen.</i>					
<i>On Friday, before I arrived. D.A. had a birthday party for John McDill- Julia and all three children were here and they evidently had a grand time."</i>					
<i>June 7, 1944, from NYC</i>					
<i>"I am still in N.Y. as you see- the Mansion in Woodstock is being cleaned by two women who live in Bridgewater. D.A. is at the cottage and before I join her at the Mansion, I hope to find a parlor maid and a chambermaid but I understand that is a difficult task! Elizabeth, Anna Daublin (the waitress) + I spent the day in Greenwich on Monday and packed a box of linens for Woodstock and a big bag and a trunk for there. There is still much left but at least we made a beginning and the day was perfect. Stone and Cobb brought down the trunk and bag from the attic and were to take them to the Express office and the freight office the following day. I wrote you, we transported the silver some time ago - when Felix drove us in a 'drive yourself car.'</i>					

Yesterday was a very exciting day here, different from any other I ever experienced. Many of the shops were closed - the

churches all open and the whole atmosphere seemed charged with significance - a solemn occasion. I went into a church in the morning and Elizabeth and I went to a prayer service in the afternoon at the Church on 35th Street + Madison Avenue. We thought of you. [the day before, June 6, 1944, was D-Day, the landing at Normandy]. I have just telephoned Mary. She and the 3 children and the maids came from Washington today. I hope to see her on Friday and hope Julia and Pillow can be with us at lunch. I am afraid Rhoda won't be able to come as that is her day at the hospital."

June 25, 1944, from NYC

"There is a rumor that the Snyders have either bought or rented the McGowan house on River Street. I think I should hear soon. ...I hope to go to Pocantico this week to see Mary and the children."

July 6, 1944, from Woodstock

"It is very beautiful here in Woodstock. You would be pleased to see the meadows with its planting of corn, grass, soy beans besides the plots allotted to the Victory Gardens. It all looks very business-like. We are at the Mansion with all the upper floor closed except for my room + the hall. Woodbury decided he would send in his resignation July 1st, so one of the landmarks of many years is no longer to be seen ranking on the lawn. Howland looks quite lonely as he goes on his solitary way. - With the shortage of men it is not easy to run a farm! John McDill works like a Trojan, Bill James is spending the summer and they both returned after a day in the hayfield to the McDill's house in time to look in at the Birthday Party given for 'Jenny Lee' - young Frederick, who is called Rickie, is a charmer - with the 3 McDills and one of the Borden[?] boys they were a party of 6. ...Since I wrote this, your letter of June 30 was brought in about the French house - I will go slow. The Snyders are still there."

July 9, 1944, from Woodstock [4 July '44 is penciled at the top right but MMBF dates the letter on "Sunday evening" July the 9th. The 9th was a Sunday; the 4th was on a Tuesday in 1944]

"I thought of you particularly this afternoon when the swimming pool was used for the first time this season. There was a break in the cement, which it seemed best to have mended before filling it, and there has been delay about having it done so the water was not turned on until Friday afternoon, so it was by no means full, but the shallows part was a very safe place for Jenny Lee and 'Ricky' as young Frederick is called, Jane and Laura McDill. ...A letter from Mary says Laurance was in Pocantico for a short visit. Laura had her tonsils out and I think is going back to Pocantico this weekend. Mary and Pillow go to the same doctor and I judge that their babies are due about the same time, which is really exciting! - Lucy Parmly leaves us on Wednesday. - It is very good to be here and I hope we can welcome Rhoda whenever she can arrange to come."

July 16, 1944, from Woodstock

"...I have just come back from a walk, up by the fernery, the bungalow, the gardens (vegetable and flower) and the swimming pool, so you can see just where I have been. We are fortunate to have Murray Maynes looking after the place. I am sure you would be pleased with the general look of things. I think I wrote you that he and his family, wife and two children, are living in the house Woodbury had beyond the flower garden. I understand they are very happy there. The meadow too would please you with the crops and on the lower part the cows grazing."

John, Julia, Jonathan, and Jane McDill were here at lunch. John asked particularly about you and I gave him the latest news. ...'Pillow' as you know, is in New York waiting for her third child and Mary for her fourth. I believe their doctor thinks Mary will come on about the same date - the first of August or thereabouts."

D.A. and I are hoping that Elizabeth and Connie will come the middle of this week. ...

D.A. and I have been looking over old letters and papers of Father's - what an interesting life he had!"

July 30, 1944, from Woodstock

"Yesterday was another red letter day for me. A letter from you dated July 23rd came on the Early mail and about 2 o'clock, a telephone from Laurance announcing the birth of a son and all going well. Mary also spoke to me, and their voices both sounded jubilant. The baby was born at 12:30, but so excited was I, that I do not know whether the event occurred in the early morning or at noon or thereabouts. When I asked Laurance about how the baby looked, he answered- 'He is a very handsome young man.' I am eager to know more particulars. I believe his weight was 6lbs. 11 oz. Pillow and her baby daughter, I believe are to be at the Medical Center until Wednesday, so doubtless she and Mary will compare notes. ...Tonight we are expecting at the bungalow, Julia, Jane, Jenny Lee, 'Rickie' (F.B.L. Jr.) and Laura McDill. ...Certainly the McDills have a houseful. Bill James is here too and he and John spend a great deal of time haying."

I stopped to see the Snyders yesterday. I think I wrote you they had bought the McGowan house. They expect to move the week of August 16th and I am inviting Eleanor Clark Leonard to stay at the French house with her son and daughter, who arrive from camp August 1st. In this way the Clarks can see how they like the house and I can discover what has to be done"

<i>in the repair [illeg]..."</i>					
<i>August 20, 1944 from Woodstock "You will be interested to know that the Snyders are pretty well settled in the McGowan house. The Mooneys house is practically empty and I think necessary painting etc. can begin as soon as men can be secured to do it.</i>					
<i>Mr. Hazelton and Mr. Paul are meeting me at the French house at 9 tomorrow morning to see what is essential to be done to keep it in condition and Eleanor Clark Leonard and her two children, I am letting try it out for the few weeks they are to be here. Ray Leonard is coming for 3 weeks in September.</i>					
<i>A telegram came yesterday from a friend of Anna Butler's announcing her death. She had been a link with the past these many years - and a loyal and a devoted friend. The clock she sent me is a daily reminder of her and Henry Butler."</i>					
<i>No date, probably August 1944, from Woodstock "We are every day enjoying Rhoda and Mary Montagu. They came Thursday, August 3rd and I met them at the Junction. They both look very well and are a great addition to the Swimming pool parties. Such a group of children is a joy to behold - the McDills (Jane + Laura) the Healeys, (Jane and Johanna) the L.B.Ls (Jenny Lee + Frederick Jr.), Connie- Julia, Mary and Rhoda - Jane Healy, Joanna , I understand are leaving the end of the week, and Rhoda and Mary. We wish they could stay longer.</i>					
<i>The silo is in process of being built and it seems like a race to see whether the silo or the corn will be ready first. Mary + Connie go to the farm nearly every day and have a grand time seeing cows, ducks, horses, chickens and we now have two pigs! It is all very interesting. I wish you could see the progress being made. The old fences in the farm yard for the most part have been taken down. The cows pasture in the old fair ground and there is an entrance on that side of the barn."</i>					
<i>August 22, 1944, MMBF writes from Woodstock "Mr. Field came yesterday and we had a good talk and D.A. and I looked over with him and Mr. Corkum, the house formerly occupied by the Mooneys. They moved out a couple of days ago and are looking for some place near town where they can live and [illeg] enough to allow Mrs. Mooney to board dogs. Someone said it would be a calamity if she gave this up. What would we[?] and another do with our pets, if there was no one to care for them! The house in which they lived needs a good deal done to it. We want to have it available for a man and his family to work on the farm. I think little has been done in a good while and painting and freshening up are much needed. It seems to me we have been neglectful in several instances and are now reaping the consequences. "</i>					
<i>Sept. 3, 1944, from Woodstock "It is Sunday morning and the weather continues clear and warm, with apparently no rain in sight. The farmers and the whole countryside need moisture sadly. We are passing through a real drought and the farmers are anxious. Our two silos are finished and the sound of the machine, cutting the corn stalks up into fairly small pieces and then sucking them up into the silo is a rather tiresome accompaniment to anything we may be doing. Yesterday however there was a let up for the afternoon of the Trail Ride; the closing exercises were held on our portion of the old Fair ground and was really very interesting. ..."</i>					
<i>Oct. 7, 1944, from Woodstock [In this letter MMBF writes about the service for D.A. on September 12. She describes the service, who attended, the letters of condolence she received, and enclosed part of a prayer from the service that she had printed.]</i>					
<i>Oct. 18, 1944, from Woodstock "Your letter in regard to trusts etc. is of particular interest to me because I had more or less the same idea last spring, before I came to Woodstock and I was concerned also about the status of adopted children, wishing them to be in the same category as the other children in the family. ...There were also certain other minor changes, such as lowering certain bequests and including others...It probably will be advisable to consider my will again, under present conditions as you suggest.</i>					
<i>I rather expect to go to New York the end of next week, but I seem not to want to go at all, but it is not fair to keep this big house open and use much-desired oil and coal too long.</i>					
<i>I am expecting Mr. Field this week to talk over farm matters. Felix, when he was here, looked over insurance papers etc. with Mr. Corkum and knows much more about farm matter than he did- which is all to the good. He felt the reports were encouraging. The Greenwish house and the French house have little to report - Eleanor Clark Leonard is staying in the</i>

<i>French house at present with her two children. She did much to help in straightening things out after the Snyders occupancy. The Snyders are settled in the house formerly owned by Mrs. McGowan. I called there this afternoon. It is a great satisfaction to me to know they are in their own house!</i>					
<i>Letters still come about D.A. and wonderful letters they are. I doubt if any one was ever more loved."</i>					
<i>Oct. 22, 1944, from Woodstock "...next Sunday, I think the house will be practically closed and Mrs. Moon has asked me to stay with them. On Sunday night by invitation of Mrs. Giles, there is to be a special meeting of the Hartland Nature Club as a tribute to D.A.'s memory and I want to be present. On Monday I may go to the Proctors for a couple of days as they have urged me to come.</i>					
<i>Mr. Field was here on Friday. Tomorrow, Julia and I, with one of the Vermont appraisers are going to explore Mt. Peg. I want to see it because it is years since I have. A letter from Mary from Sea Island, where she + Larry have been for a week. They are now in Washington - as are Elizabeth and the children. I hope to go to see them soon after returning to N.Y. for I haven't seen Larry Jr."</i>					
<i>Nov. 9, 1944, from NYC "Mary came here and spent the night and went to Tarrytown Tuesday morning to vote and returned to Washington that same day. She looks very well.</i>					
<i>On Monday, Roy Amidon is coming to 142 to appraise D.A.'s belongings here - so we plan to get out her silver etc. so as to make the task as easy as possible. The appraiser is the same one, Mr. Ablitzer[?], as came to Woodstock. I found him extremely able and very intelligent and his knowledge surprising. Even the chest in which the photographs are kept in Father's room in Woodstock did not faze him in the least- "Korean he said, probably brought to this country by a ship captain, but the marquetry of a somewhat unusual pattern!" Farm and laundry equipment also was as entirely familiar to him as rugs, paintings, furniture etc. When I asked him how he could know so much, he replied, "I have been at it 25 years."</i>					
<i>Nov. 22, 1944, from NYC "I came back from Washington yesterday. I staid [sic] with Elizabeth, Connie and the baby. The afternoon I arrived, Friday, no Thursday, Novemebr 16th, Elizabeth + I went to Mary's for tea and to our delight F.B. Lee came in and later Laurance. I saw all four children and the baby is a fine boy- very strong and husky and I believe although smaller than his sisters, when he was born, he now weighs more than any one of them at the same age. Frederick and Laurance both look extremely well. Frederick seems rather fed up with Pensacola and would like a change, but evidently his superior officer depends on him. Pillow and his children are there, and I think for their sakes he would like to get away.</i>					
<i>Letters are now coming in from those who have received notices that they are remembered in D.A.'s will and their gratitude is touching. On Wednesday, the N.Y. property is to be appraised, so I expect Hoyt Amidon, Mr. [?] and Felix at 9:30 A.M.</i>					
<i>A letter from Mr. Field or rather a report of the farm I found on my return."</i>					
<i>Dec. 13, 1944 "Mr. Clendaniel has just been in and he, Mary and I have been talking about the French house on Mountain Avenue and its possible sale. The Adams, who have made the offer are all right. They have been operating the White Cupboard and are an asset to the community. Although the offer is not high[?] yet there is a good deal to be done and it is good to have a house occupied. I talked to Rhoda after receiving your letter aout it, and I think I wrote you that the ownership of the house did not appeal to her, that she would rather not be so much in the village and liked better the direction where the 'Mansion' is. It does not seem to interest either Mary or Elizabeth. Under these circumstances I am inclined to accept this offer, for at least it would be one less care and it is good to knowa house is occupied by people who will be good citizens. They sent a thousand dollar check to show they are in earnest. ...From the things they have done in the White Cupboard it can be seen they have lovely taste.</i>					
<i>Mary is staying until Thursday she is cooking very well. I am glad to have her with me.</i>					
<i>Elizabeth, Connie, Polly + Peggy, the nurse are coming Monday. It will be a joy to have them over Christmas. How I wish you were to be with us..."</i>					
<i>January 7, 1945, from NYC "For dinner today, Rhoda came with Johnny, Bobby and Mary. Laurance and Mary were also here, as well as Elizabeth and Connie and the baby, so we had quite a reunion - incomplete as it was without you, alas and Ethan and the 4 Rs. Elizabeth</i>

<i>French, Mary Montagu Billings. Letters to her son John French, Jr., 1945. Excerpts below.</i>				<i>Accession 2016.001</i>	
<i>Feb. 4, 1945, from NYC</i>					
<i>"It seems quite a time since I wrote you last week Sunday, from Woodstock. I took the train Tuesday morning and had a very busy day Monday. Mr. Corkum came for me at 9 A.M. at Mrs. Faulkners and took me to the Farm house- (he has his desk in the dining room.) He had many questions to ask about the Mooney house - and I hope now that the contract is approved, work will begin soon. Murray Maynes came in and we had a talk about the division of work of the two sides of the road - which I hope is now satisfactory to all concerned. I also went to see what had been done in painting etc. in the barns- (cleaning up) - I looked at the cows and to see so many seems quite like old times! I asked Mr. Corkum about taking something to eat to N.Y and on Tuesday A.M. he brought me two bowls and a quart of cream which we enjoyed yesterday for lunch when Mary and Peggy (David's wife) were here, and today for Sunday dinner when Rhoda and the children and Dina[?] and Bill were here."</i>					
<i>June 11, 1946, from Woodstock</i>					
<i>Josephine Pitkin and I were up to the Mansion yesterday morning and in the afternoon, Murry Maynes met Johnny, Bobby and Mary Montagu with Mrs. Francis at Windsor. They arrived looking happy and well and all are at the cottage, except Johnny, who is in the room he calls his own and is a delightful guest. ...</i>					
<i>The public schools are out this week and then we hope the children will get together - the McDills, the Healeys and the Frenches . The Andersons and the Healeys are at Line[?] Farm and I went over to see them and it is a delightful place.</i>					
<i>I have talked with Mr. Corkum about the farm and today the silo was being filled with grass which looked luscious. The swimming pool we also talked about. A new coat has to be put on and we have chosen a blue tint which should make the color of the water more attractive. The Mansion is as welcoming as ever and it is good to be here - Josephine is a wonderful help. She can use the car and help with the ordering and cooking and we have had grand times together. I hope she will stay with me another week or longer.</i>					
<i>Redfield Proctor came to see me Sunday. He stopped in on his way back from Cornish where he had attended the Commencement where Gen. Eisenhower received a degree. We had a good talk and a good time. I think of you often and am grateful to have had you with me this winter.</i>

<i>"The 3 children came Monday and Johnny is staying in the room he calls his, up here and Bobby and Mary are at the cottage with Mrs. Francis and Rosalie the colored maid has also come. ...Johnny and Bobby seem very happy, - they have their bicycles and ride all about. Mary loves the farm and the animals and today they were all here for dinner and we had chicken and an angel cake and a very good time.</i>					
<i>L + M Laura + Marion I rather think are on their Wyoming trip. ...it was good to have you at 38th street..."</i>					
<i>June 23, 1946, from Woodstock</i>					
<i>"I had a postcard from Mary from Jackson Hole. She wrote enthusiastically of their trip. The girls, Laura + Marion ride every day + love it. Nelson was expected this week and Fairfield Osborne was a guest and they were making plans for a game preserve. I am not sure how much longer they are staying.</i>

<p>Proctors. Today we plan to go to Hanover - Have lunch in Oxford, and I may stop in at the Inn in Hanover and call on the Newtons. Mr. Newton a classmate of your father's and has invited me to attend some of the festivities, but I have refused."</p>					
<p>July 6, 1946, from Woodstock "Your two letters came in this morning's mail, one dated June 30th, the other July 1st. I wish you might have gone to Nuremburg as first planned, for it would have been something unusual to remember.</p>					
<p>The Fourth of July celebration here went very well. I understand 'Life' sent a photographer here to take pictures of the school band, the various floats, the costumes, etc. It really was quite enlivening and several went in the evening to the square dances, held in the middle of the town. I didn't go but understand there were crowds taking part and looking on.</p>					
<p>The hay is all in and that is very unusual so early the [?] etc. have helped a great deal."</p>					
<p>July 21, 1946, from Woodstock "Elizabeth, Connie, Polly and I have just come down from the Bungalow where we have been for supper. The little girls are now in bed and Elizabeth and I am in the Library - she reading while I write. Elizabeth was delighted to find some of the trees which have sprung up and shut off views from the bungalow, have been cut. I am sure you will be glad too even though only a beginning has been made.</p>					
<p>Elizabeth heard from Ethan from Rio, Brazil and he is as enthusiastic as my Father was, about the surprising beauty of the harbor there. He is evidently having an interesting time and Elizabeth thinks he may be back in about ten days and soon after I think they will go to Cotuit, Cape Cod where Judge Hitchcock is - but I hope they won't be away long for it is very good having them here.</p>					
<p>Mary and Laurance and the children, I think went to Saranac about a week ago and I hope they will drive over here, as Mary, Marion and Lucy did last year.</p>					
<p>...May Billings is here and expects Pauline and Carl in August sometime - Carl is in a camp in Maine, which he evidently likes very much."</p>					
<p>July 26, 1946, from Woodstock "Mr. Field was here not long ago and the question came up as to the wisdom of the retailing of the milk and cream on the farm, and I would very much like your point of view. We asked that Mr. Field + Mr. Corkum both express and write down what they considered the pros and cons of this venture. I had what they wrote typed by Mrs. Ireland and am enclosing a copy. As you can see there are questions- rather puzzling. I hope to talk to Mary and Elizabeth and am thinking about it a good deal myself." [The typed pros and cons are included.]</p>					
<p>August 12, 1946, from Woodstock "Your letter dated August 4th is very welcome and I am greatly interested to hear about your meeting Johnny[?] Rockefeller and about your having supper and breakfast with him. I know Mary and Laurance will be pleased too. I am expecting Mary, Marion and Lucy tomorrow and Laurance on Wednesday. I am looking forward to their being here with great pleasure. I think they are staying only a short time, but I rejoice that they are to be here even for a short visit. Perhaps they can be persuaded to come again. ..."</p>					
<p>August 18, 1946, from Woodstock "The house seems quiet this afternoon - Laurance, Mary, Marion, Lucy, and Delia left shortly after breakfast to motor to the Webbs, near Burlington, where they will spend the night. In the morning Laurance has chartered a plane to meet him in Burlington, and, as I understand plans to pick up F.B.L. in Rutland. ...</p>					
<p>L + M saw friends and family and they played tennis and golf. Laurance looked at the Farm with Mr. Corkum and I think he was impressed with what has been done. ..The 15th of August was Laurance and Mary's 12th wedding anniversary, so we had a little celebration...Laurance showed me a postal he had received from his brother John saying how much he had enjoyed seeing you."</p>					
<p>August 26th, 1946, from Woodstock "...Since your last letter I have had your proposition about the farm including the immediate question of the establishment of a milk route and joint ownership typed and sent to Mary and Elizabeth asking for their comments, but as yet have had no replies. ...Elizabeth is till away with Connie and Polly at Cotuit. I hope they will come back some day this week and I wrote suggesting they bring Judge Hitchcock with them..."</p>

<p><i>Pillow is still at the cottage and is enthusiastic about it and the children revel in the animals and the baling of the hay etc. May, Pauline, and Carl came for Sunday dinner yesterday and Julia, Jonathan, Jane, and Laura came for supper at the bungalow. We had a very good time at both dinner and supper.</i></p>					
<p><i>I am looking forward to having Rhoda and the children before long. I really think the children, all three[?], have a real attachment to the place and are very happy to be here. In fact I think all members of the second generation have a love for it and perhaps a feeling of ownership."</i></p>

<p><i>Sept. 1946, from Woodstock [This is a typed letter from MFR to MMBF. Beneath the typed note from MFR is a handwritten note from MMBF to John.] MMBF- "The above came from Mary a few days ago, so I send it along..." MFR writes from Camp Canaras in New York.- "Thank you for your letter regarding the future of the farm. As far as we are concerned we would be glad to have John take over our interest in the farm. We feel that if he is interested in running it that he is the logical one to do so.</i></p>					
<p><i>As far as the property on the other side of the road, perhaps that could wait for a decision until his return - Elizabeth or I or both could take that over, except possibly "Hilltop" which either John or us would be interested in. I should think, though, we could wait and decide about "Hilltop" when he comes back and he could deed us his interest in exchange for the farm, if he thinks that is fair."</i></p>					
<p><i>Sept. 16, 1946, from Woodstock "...Rhoda and the boys and Mary left on Wednesday, September 11th and a letter from her this morning tells of the safe arrival and of the boys going to school today. I think the 16th [?] I have Elizabeth, Connie and Polly and they are leaving on Thursday. Just what I am going to do then, I am not sure. Josephine, alas, can not come to the cottage to be with me and I would much rather have company then to be here all alone - however I think something[?] will turn up - at least I hope so for I would rather not start in in [sic] N.Y. quite so early.</i></p>					
<p><i>Since I last wrote May, [?] Mr. Clendaniel asked if I would like to buy the Dodd house. After thinking it over carefully, it seemed to me the best thing to do- so although I have not received the deed, it is in the works - the price \$5,500. I am sure it can be rented this winter - and as no alterations can be accomplished this winter, that may be the best place.</i></p>					
<p><i>It may be needed for a place for a man + family on the Farm. Like[?] the sale of 179 Lake Avenue, I can swing it financially. I hope you approve.</i></p>					
<p><i>Elizabeth now has possession of the house on 93rd Street and painting is being done and she hopes soon her furniture can be delivered."</i></p>					
<p><i>Oct. 20, 1946, from Woodstock "...It is hard to get away for me this year and I am delaying returning to N.Y. as long as possible, but I do want to see children + grandchildren so I will set forth soon I think. I find plenty to do here."</i></p>					
<p><i>Oct. 27, 1946, from Woodstock "Your letter dated October 10th, with the 5 photographs, one of Munich, one of Heidelberg, two of Stuttgart, and one of Königsee were very welcome. The one of Munich looks very devastated, but the ones of Königsee and Munich give one a much happier view of this worn torn country.</i></p>					
<p><i>As you see, I am still in Woodstock and find it extremely difficult to leave. The weather has been beautiful. I find plenty to keep me busy indoors and out. I see Mr. Corkum now and again. The ploughing on the meadow and on the former Fairground and Brick lot is done. The herd is doing well. The cottage (D.A.s) is closed with the exception of a few rugs, which have been cleaned and are not yet returned. The rooms in the Mansion are closed for the most part - most of the bed rooms - but the library is open and with all the memorandum, letters, papers etc. about Mother and Father, I can keep occupied indefinitely. I came across a letter of Father's the other day in which he told about going to the Presidents [Lincoln' is inserted above] Reception, dated February 3rd, but no year. He said "the President wore a French coat - that the reception was so -</i></p>

so etc.' I also found a lovely letter from him to me when I was in Farmington. I find it quite fascinating to read about those bygone days.

I lunched with the Norman Williams today - Mrs. Faulkner was the only other guest. Norman said after Christmas they were planning to go to Honolulu.

Week after next I am planning to go to New York."

November 5, 1946, from Woodstock

"...I don't wonder you thought I had moved down to New York. It has been years since I have staid so late, but the weather has been beautiful and the foliage gorgeous and I have had a grand time looking over old letters and photographs and having time to see a good many of the Woodstock people who stay up all the year.

On Friday of this week I am planning to motor to N.Y. - Felix is coming up tomorrow and Anna is accompanying me. She and I are alone in the house. Ann went to a wedding in New Jersey, I think. She had promised to go and make the wedding cake - but she left a good deal of food so we get on famously, besides I am invited out a good deal.

As to the milk route, we talked it over and felt it involved quite a layout and a good deal of expense - and I have put in a good deal this year, buying the Fair ground and the Dodd's house and new equipment and also the uncertainty of the future and the difficulty of securing help. Two of our men, Eddy and Robinson have already gone or are going. So it just doesn't seem the time. I hope you are not too disappointed."

November 28, 1946 (Thanksgiving), from NYC (142 East 38th St.)

"We had 15 altogether and we would have had 16, if Larry had come, but he had a little temperature so couldn't come. Laurance and Mary left, on Wednesday night, for Miami, where I think they are to be about a week. Laurance is getting over an attack of glandular fever and was at the N.Y. hospital for several days.. As it was, we had all the grandchildren but Larry - and a lovely time we had. Johnny and Bobby look very well - I am sure the Harvey School must be an excellent place for them. Mary too, looks well. They make a fine trio. Bill Boardman, we enjoyed. Laura, Marion and Lucy, all dressed in blue fitted in well. Connie was certainly full of life and little Polly is a dear. Rhoda was the carver and did very well."

August 10, 1947, from Woodstock

"We have just come down from the Bungalow, where we had quite a party, John, Julia McDill and their little Laura, Jennie Lee, Rhoda, Mary Montagu and Bill, Elizabeth, Connie and Polly.

Our party on Thursday was a great success - and Mr. Stone came up to take photographs. Among the dresses I had put away, I foud enough to fit Rhoda, Mary and Elizabeth + Pillow. Julia had one of her mother's. They all looked very lovely in their long skirts and lacy frills - then the children - the girls - wanted to dress up, so clothes were found for nieces and they were very charming. Jane McDill had a hoop skirt and Lucy Rockefeller and Mary Montagu were in white and Connie + Polly + Jenny Lee were all in white. It was a beautiful day. The boys helped with the punch etc. and there were over 200 here and I have had many expressions of appreciation, which is very pleasing. Several of the newcomers to Woodstock were here for the first time and a fine spirit prevailed - I think you would have approved."

Billings Farm
Harold Corkum

January 19, 1944, from Woodstock

"I continue my agrarian pursuits with increasing fervor born of the scantiness of help, the increase of my stock and an expanding interest in the whole game of cattle raising. The cattle scourges that made the summer a nightmareish experience have abated, but the end of my troubles is not yet. Only this morning another fine young heifer had to be given a one-way ticket to the butcher because of an unfavorable blood test. I have now lost the discouraging total of 15 head in less than a year.

A brief report on your new mgr. at the main farm, Harold Corkum. He is a good man, intelligent, well- trained, experienced, very hard-working, about 30 years old. I like him personally very much and find him agreeable, friendly and cooperative. The only possible hitch might be his staying qualities. He has moved around from one job to another with some frequency, but what this signifies, I don't know. He has made a very judicious purchase of cattle, fine, big, well-bred stock, and is deep in his

<p><i>work. He is very short of help and is doing everything himself. I don't think Field could have found a better man anywhere in New England in these man-short times. All in all, the farm has made a good start.</i></p> <p><i>Local news centers around the feverish activities of the newly-formed Woodstock associates. You know about that, don't you? It's our community trust, funds put up by Mrs. Faulkner and the Grist Mill Property already in hand to serve as a community center. ..."</i></p> <p><i>April 4, 1944, from NYC [He writes, "New York - Your mother's house"]</i> <i>"Things are looking up on my farm. Cattle diseases have quieted down and the help problem has eased. My wayward, liquor-loving laborer has improved his ways and has been right on the job. Too, I have Geo. Burke, Bill Emmons' former manager, now under consideration as a replacement. Manpower restrictions prevent me from hiring him forthwith, but he's an ace in the hole, and I am sitting pretty. As a matter of fact, this Burke and his very nice family of wife and three girls (the oldest of whom I hope Jonathan will wed) are temporarily inhabiting the Herdsman's House until such a time as they can move into Line where they will spend the summer. That Herdsman's House has been a boon; the number of times it has tided people over times such as this are numerous.</i></p> <p><i>Corkum, your new manager, is a good egg and very capable. I am getting to know him better and better and like what I find. At this writing he is almost the best friend I have in Woodstock. He certainly knows his business about cows, and farming too. He is making a good name for himself in the community; recently he joined the State Guard company and is gradually identifying himself with the life of the town.</i></p> <p><i>Milk from you farm now goes to Buttricks. They are making up to six cans (each can 40 qts.) per day, a goodly quantity of milk in any country. It is almost twice as much as I produce. I feel very content to think that all this production of food has been accomplished within a year. It hasn't been without cost naturally, but I sincerely believe that your family's and my investment will be returned to all of us many times over, not as profits, but as a form of security and fulfillment of the obligations of ownership of land, especially such fine land and buildings. You will, city-man though you are, be excited and delighted to see what has been accomplished."</i></p>

Box P35	101	BFA	Gurney, Jeremiah [attr]	1862	Series II: Photographs, Oversize
<p>Loose photos, Parmly Family. Three oversize photographs of two different studio poses of the Parmly and Ward families and friends, 1862. The group portraits were taken shortly after Frederick Billings and Julia Parmly's wedding in 1862.</p> <p>JRH notes in her guide to the BFA, 1995, that there are four copies; two photographs were stored in Box P35 and two additional (larger) copies were in the Map Case, Drawer 5. At cataloging in January 2013, only one photograph was found stored in the Map Case; that copy was moved to Box P35. The location of the fourth photograph is unknown.</p>				<p>The New York Historical Society has a copy of one of the images in the Imperial Portrait Photograph File and attributes it to New York Photographer Jeremiah Gurney. The Finding Aid for the collection reads:</p> <p>"The group portrait of the Parmly and Ward families came to the Society with a family legend attached. The subjects of the photograph are the friends and family of Julia Parmly (1835-1914) who married lawyer Frederick Billings (1823-1890) in New York on March 31, 1862. Present in the picture are Julia's father, the prominent New York dentist (known as "the father of American dentistry") Dr. Eleazar Parmly (1797-1874), Julia's brother Erick Parmly (1829-1907) and sisters Anna Parmly (incorrectly identified in the inscription as Louisa, who died in 1845) and Mary Parmly Ward (1831-1914), Mary's husband Charles H. Ward (1833-1905), and Charles' mother Abby Hall Ward and brother John Ward (1838-1896). Also present are family friends Gilman Morton and Benjamin Church. The Wards shown in this photograph were the mother and brothers of William Greene Ward. According to a twentieth-century inscription on the verso of the photograph's mount, the group had their picture taken just after they had escorted Julia and Frederick Billings to a dock to board a ship taking them on their wedding trip to California. Robin Winks, in his biography <i>Frederick Billings: A Life</i> (New York: Oxford University Press, 1991), states the chronology thus: the couple took a wedding trip to Philadelphia, then returned to New York to pack, and on April 11, "sailed for California on the Northern Light, seen off by a tiny band of family and friends." Prior to meeting Julia Parmly in New York and immediately marrying her, Billings was a resident of San Francisco, and the couple traveled there to close out his businesses. The Billings then returned to New York and settled here.</p> <p>Jeremiah Gurney (1812-1895) was one of New York's finest portrait photographers, and is known primarily for his daguerrean work. His carte de visite and cabinet-format portraits are not uncommon in public and private collections, but his Imperial format portraits are rare.</p> <p>...The group portrait is not marked, but is attributed to Gurney based on the quality of the photograph, and on the distinctive carpet showing in the image, which is also seen in marked Gurney carte de visite photographs (for examples, see album no. 415 in PR 002, the Album File, <i>The House of Bishops of the Protestant Episcopal Church of the United States Photographed from life during the Triennial Convention by J. Gurney & Son</i> (New York: T. Porter Shaw, 1862.) The family inscription on the verso of the mount suggests the photographer was William Kurtz (1834-1904), but he is not listed in the New York City directories until 1865."</p> <p>On the reverse of each photo is a list of the subjects, left to right (in JRH's hand): Gilman Moulton John Ward Jr. Mary Montagu Parmly Ward (Mrs. Charles H. Ward) Mrs. Rose Elmire Roy Dubois (Ehrick Parmly's mother-in-law)* Charles H. Ward Eleazar Parmly Benjamin S. Church</p>

<i>Oversize mounted photograph. Black and white image of the Billings Farm by Sherman Howe, c. 1960. On reverse by JRH, "(a long telephoto shot from the high meadow behind Mt. Peg)." Also the catalog number P.475.</i>				<i>P.475 is a catalogue number assigned by former curator Janet Houghton in the 1970s-80s when she was the curator for Mr. and Mrs. Rockefeller. The letter 'P' denotes a painting or print.</i>	
<i>The catalog information in the former curator's catalog cards at Marsh-Billings-Rockefeller NHP, October, 1986:</i>					
<i>"Long range view of the Billings Farm, showing the Farm Manager's House and the Barns in center foreground, and the South Pomfret valley and hills in the background. Black and white photograph on paper. Signed Ir "SH". No frame. Dry mounted on lightweight modern foam core board. Unmarked. Sherman M. Howe, Jr. (b. 1925) 24" x 30" c. 1960?</i>					
<i>Condition note - Good; some abrasions and spots on the image. Transferred, at cataloging from its original mount, a heavy Masonite panel with screw-and-string hanger, to the modern foam-cor. As found, the print was curling and vulnerable at corners, dry mounting tissue was failing. Remounting undertaken by Sherman Howe.</i>					
<i>Other remarks: Sherman Howe reports that this was not an aerial shot from a plane, but rather a long telephoto view taken from the high open meadow on the ridge behind and above mount Peg. The original negative is no longer in his studio files, and this is the only print known to survive. In 1987 he made a new black and white negative from this print, for the BF&M files."</i>
